

Please do not remove K-LOVE from the air because of the new LPFM stations. K-LOVE has served local communities like mine in ways not many people can understand. I recently moved from my hometown into a smaller community that has not been blessed with K-LOVE, and I now see more than ever how important a station like K-LOVE was in my life. I cannot find its equal on a "regular" radio station. It was awesome to see how God's love could be spread to communities across the country (and world!) with the programming and music on K-LOVE. There are other radio stations - even other Christian stations (though not many..), but the listener-supported, commercial-free, God-inspired music, news, lessons and prayers heard on K-LOVE have the power to bring a community where it needs to be - in God's hands. Please leave it there! Thank you.
